Gotham Oracle Privacy Policy

We believe you should always be aware of any information we collect from you and in what ways it is ever used. You should have relevant control over both. We want to empower and inform you to make the best decisions you'd like to make about the information that you share with us. That's the purpose of this Privacy Policy.

Gotham Oracle Legal Info

Our Privacy Policy ("Privacy Policy") helps explain our data practices, including the information we process to provide our Services.

For example, our Privacy Policy talks about what information we collect and how this affects you. It also explains the steps we take to protect your privacy while being specific to your interests, like building our service so that decisions regarding what you want to do for recreation are generalistically planned night to night showing available options and then recommended personally through things you've communicated with the service prior that you like to do and favorited. In this sense we are personalized for each user id more and more over time.

You can learn more further below in this Privacy Policy about the ways in which we use and share information.

This Privacy Policy applies to all of our Services unless specified otherwise.

Please also read Gotham Oracle's Terms of Service ("Terms"), which describe the terms under which you use and we provide our Services.

Information We Collect

Gotham Oracle must receive or collect some information to operate, provide, improve, understand, customize, support, and market our services, including when you sign up for, access, subscribe to or use our Services.

The types of information Gotham Oracle collects depends on how you use our services. But generally we require sign on/in information such as Google sign in credentials that provide us your Google information by utilizing Google OAuth integrated services. This allows for us to provide streamlined and third-party secured sign in processes.

In the future our service may provide optional features which, if used by you, require us to collect additional information to provide such features. You will be notified of such collection through notifications about updates to our Privacy Policy and Terms of Service.

If you choose not to provide the information needed to use a feature, you may be unable to use the feature. For example, if we integrate location or contact services to best serve recreation recommendations and if you do not permit us to collect your location or contacts data you will not be able to utilize location associated features such as recommendations or be able to share information with your contacts.

Information You Provide

- Your Account Information. You must provide your Google account sign in information such as a Gmail and basic credentials information to create a Gotham Oracle account. You may also be asked to create a username. If you don't provide us with this information, you will not be able to create an account to use our Services. In the future you may also be able to add other information to your account, such as a profile picture and "about" information.
- Your Interests and Selections. We record the information, interests, and selections you make and provide as you utilize the platform. We then measure and suggest what you might like to do dependent on the information you provided and our recommendation engine. We may use this information to develop larger trends in regards to aggregate behaviours but will never associate this information with specific profiles. That personally unidentifiable and aggregate information can be used or sold in some capacity.
- Transactions And Payments Data. When you use our payments services, or use our Services meant for purchases or other financial transactions, we process additional information about you, including payment account and transaction information. Payment account and transaction information includes information needed to complete the transaction (for example, information about your payment method, shipping details and transaction amount). If you use our payments services available in your country or territory, our privacy practices are described in the applicable payments privacy policy.
- Customer Support And Other Communications. When you contact us for customer support or otherwise communicate with us, you may provide us with information related to your use of our Services, including copies of your messages, any other information you deem helpful, and how to contact you (e.g., an email address). For example, you may send us an email with information relating to app performance or other issues.

Automatically Collected Information

- This Is In Regards To Usage And Log Information. We will collect information surrounding your activity and our Services, such as service-related, diagnostic, and performance information. This may be information about your activity (including how you use our Services, how you might interact with others using our Services (including when you interact with a business, or your Services settings), and the frequency, time, and the duration of your information and activities and interactions, log files, and crash, diagnostic, website, and performance reports and logs. In addition this includes information about when you registered to use our Services; the features you use, payments or business features; profile "about" information if that is applicable; whether or not you are online, and when you last updated your information.

- This Is In Regards To Device And Connection Information. We collect device and connection-specific information when you subscribe to, access, or use our Services. This could include information such as the hardware model, battery level, operating system information, app version, signal strength, mobile network, browser information, connection information (including phone number, mobile operator or ISP), language and time zone, device operations information, IP address, and identifiers.

- This Is In Regards To Location Information. We may collect and use precise location information from your device with your permission if we integrate this and you were to choose to use location-related features. In the future this might be location-based activity recommendations for sharing your location with your contacts or view locations nearby or locations others have shared with you. We also use your location information for diagnostics and troubleshooting purposes

- This Is In Regards To Cookies. We use cookies to operate and provide our Services, including to provide our Services that are web-based, understand how our Services are being used, improve your experiences, and customize them. We use cookies to provide our Services for web and desktop and other web-based services. We may also use cookies to understand which of our articles or pages are most utilized and to show you relevant content related to our Services. We may use cookies to like your language preferences, remember your choices, or to provide a nicer experience, and otherwise to customize our Services for you.

Third-Party Information

- This Is In Regards To Information Others Provide About You. We may receive information about you from other users such as reference information. For example, when other users you might know use our Services, they may provide your phone number, name, and other information (like information from their mobile address book) just as you may provide theirs if we provide a referral program. They may also send you messages, send messages to groups to which you belong, or call you forwarding Gotham Oracle information for sign up purposes. We require each of these users to have lawful rights to collect, use, and share your information before providing any information to us.

- This Is In Regards To Businesses On Gotham Oracle. Businesses you interact with using our Services such as payments third parties or other third parties may provide us with information about their interactions with you. We require each of these businesses to act in accordance with applicable law when providing any information to us. For example, a third-party service provider may provide access to its communications with Gotham Oracle users to send, store, read, manage, or otherwise process requests for the business.

- This Is In Regards To Third-Party Service Providers. We might work with third-party service providers and other companies to help us provide, operate, understand, improve, support, customize, and market our Services. For example, we might work with them to distribute our marketing material or provide technical and physical infrastructure, delivery, and other systems; provide engineering support, cybersecurity support, and operational support; supply map, location, and places information; process payments; help us understand how people use our Services; help you connect with businesses using our Services; market our Services; conduct research and surveys for us; ensure safety, security and integrity; and help with customer service. These companies may provide us with information about you in certain circumstances; for example, app stores may provide us with reports to help us diagnose and fix service issues.

- This Is In Regards To Third-Party Services. We may allow you to use our Services in connection with third-party services and companies. If you use our Services with such third-party services, we may receive information about you from them; for example, if we implement a share button for media

sharing purposes and you use the Gotham Oracle share button to share Gotham Oracle with contacts, groups, broadcasts, or medias through a third party then you choose to access their Services through a mobile carrier's, device provider's, or other's promotion of our Services. Please note that when you use third-party services, their own terms and privacy policies will govern your use of those services and products..

How We Use Information

We use information we have (subject to choices you make and applicable law) to operate, provide, improve, understand, customize, support, and market our Services. Here's how:

- This Is In Regards To Our Services. We use information we have to operate and provide our Services, including providing customer support; completing purchases or transactions; improving, fixing, and customizing our Services; and connecting our Services with Gotham Oracle features and products that you may use. Additionally we use information to evaluate and improve our Services, we have to understand how people use our Services; develop, research, and test new services and features; and conduct troubleshooting activities. We also use your information to respond to you when you contact us.
- This Is In Regards To Safety, Security, And Integrity. Safety, security and integrity will always be an integral part of our Services. We use information we have to verify accounts and activity; protect users against bad experiences and spam; combat harmful conduct; and promote safety, security and integrity on and off our Services, such as by investigating suspicious activity or violations of our Terms and policies, and to ensure our Services are being used legally.
- This Is In Regards To Communications About Our Services. We use information we have to communicate with you about our Services and let you know about our terms, policies, and other important updates. We may provide you marketing for our Services.

- This Is In Regards To No Third-Party Banner Ads. We don't allow third-party banner ads on our Services. We aim to remain banner-ad free. We have no intention to introduce them, but if we ever do, we will update this Privacy Policy.
- This Is In Regards To Business Interactions. We enable you and third parties, like businesses, to communicate and interact with and through our services, such as submitting events to be included in our platform through surveys. The information from which will all be taken under review and potentially edited and cleaned before being served to the public through our platform. In the future through possible integrations with events and businesses, they may send you transaction or appointment notifications; product and service updates; and marketing in relation to our services and their events. For example, you may receive ticket status information for upcoming events, a receipt for something you purchased, or a notification when an event will occur. Messages you receive from a business could include an offer for something that might interest you. We do not want you to have a spammy experience and if these are to occur they will only ever be strictly in relation to relevant events and services available.

Information You And We Share

You share your information as you use and communicate through our Services, and we share your information to help us provide, operate, understand, improve, support, customize, and market our Services.

- Information Associated With Your Account. Your Google Account information is recorded after signing up for Services.
- Businesses On Gotham Oracle. We offer specific services to businesses such as providing them with metrics regarding their use of our services.
- Third-Party Service Providers. We may work with third-party service providers to help us operate, improve, customize, understand, market, support, and provide our Services. We work with these companies to support our Services,

such as to provide technical infrastructure, delivery and other systems; market our Services; conduct surveys and research for us; protect the safety, security and integrity of users and others; and assist with customer service. When we share information with third-party service providers in this capacity, we require them to use your information on our behalf in accordance with our instructions and terms..

- This Is In Regards To Third-Party Services. When you or others use third-party services that are integrated with our Services, those third-party services may receive information about what you or others share with them. For example, if we integrate and you use a data backup service integrated with our Services (like Google Drive or iCloud), they will receive information you share with them, such as your Gotham Oracle profile info.
